

GENERAL INFO

The world's best cross-country skiers will be returning to Canmore, Alberta in 2010! The Viessmann World Cup FIS Cross-Country event will run February 4-7, 2010 at the picturesque Canmore Nordic Centre Provincial Park and will feature the final international races prior to the 2010 Olympic Winter Games in Vancouver.

Don't miss the action as Canada's Olympic team makes its final preparations against a star-studded field of 200+ athletes from over 25 nations.

Spectating at the World Cup events is free! No tickets are required.

There will be more than 40 km of public skiing available at the Nordic Centre during the World Cup (provided we have ample natural snow). In a worst-case scenario there will be a minimum of 10 km of public skiing open on machine-made snow.

The only facility limitations imposed on the public by the World Cup will be that there will be no public parking at the Nordic Centre on February 5 & 6. For details on public parking and transportation to the Canmore Nordic Center [click here](#).
